

## Display Area Information

1. Determine the locations for displays and when they need to be set up.
2. Arrange to have enough tables for mission partners to each have room to set up their display.
3. For ease, it's nice to have table cards with that missionary's name on it so they know where to set up.
4. Compile a list of the equipment needed for mission partners to most effectively set up their displays. Have some extra supplies on hand for those who have traveled and did not have room to pack display items. Have access to make copies as needed.
5. Assist the mission partners in carrying in their equipment for the display.
6. Be aware of security concerns for those serving in more closed countries, and ask if their information is safe to be shared on social media.
7. Ensure that each mission partner knows how your congregation can become engaged with them. Have the missionaries look at the Life Commitment cards.
8. Arrange to help tear down and carry out the mission partner's display at the end of the celebration.

## Notes:
