

An amazing Faith Promise testimony comes from a church in Florida. Joe and Suzanne are retired couple. They became really excited about missions during their church's Global Impact Celebration (GIC). When they went forward to turn in their Faith Promise pledge cards, Joe and Suzanne had not discussed with each other what they had pledged. Both Joe and Suzanne doubled the amount they were already tithing to the church.

When they discussed it later, they realized that they had, in essence, pledged to triple the amount they were giving to their church. They panicked a little, not knowing how they would make this work.

A few weeks later, Joe and Suzanne received a check in the mail for the entire amount of that year's Faith Promise pledge. They were ecstatic and gave all of the money to the church.

Joe and Suzanne told me how their faith was strengthened through making a Faith Promise and seeing God provide for it in such an unexpected way.
