WHAT IS TMS GLOBAL'S ACTIVATE COACHING PROCESS?

Activate is a two-year process that transforms your outreach into a vision for active community engagement. The process begins with a highly interactive workshop that informs and inspires your entire church to be on mission. Following the workshop, your church will receive personalized coaching to discern & implement a six-part mobilization plan that activates your congregation live out their unique missional calling locally and globally.

TMS Global's Activate Training is the first step your church takes in discovering and living out a unique missional vision and calling from God. The 5-hour event is facilitated by one of our TMS Global Activate Coaches and includes a variety of learning exercises for anyone in your church. It is important for key church leaders, stakeholders in the congregation, and anyone passionate about mission to attend.
